**Effingham, IL, April 22, 2021** – Midland States Bancorp, Inc. (Nasdaq: MSBI) (the “Company”) today reported net income of \$18.5 million, or \$0.81 diluted earnings per share, for the first quarter of 2021. This compares to net income of \$8.3 million, or \$0.36 diluted earnings per share, for the fourth quarter of 2020, which was negatively impacted by \$4.9 million of charges related to the prepayment of FHLB advances, a \$0.6 million loss on mortgage servicing rights (“MSRs”) held-for-sale, and \$0.2 million in integration and acquisition expenses, and to net income of \$1.5 million, or \$0.06 diluted earnings per share, for the first quarter of 2020, which was negatively impacted by an \$8.5 million impairment on commercial MSRs and \$0.9 million in integration and acquisition expenses.

Jeffrey G. Ludwig, President and Chief Executive Officer of the Company, said, “Our first quarter results reflect a significant increase in our level of profitability resulting from the actions we took last year to increase efficiencies and optimize our business model. Despite operating in a low growth, low interest rate environment, we are seeing substantial improvement in our performance metrics including our efficiency ratio, return on average assets, and return on average tangible equity, as well as strong increases in our capital ratios and book value.

“We continued to execute on our strategy to increase our recurring fee income with the announcement of our acquisition of ATG Trust Company, which we expect to close during the second quarter of 2021. The addition of ATG Trust will further increase our assets under administration and provide additional expertise in specialized areas that will improve our ability to attract new clients to our wealth management business.

“During the first quarter, we saw an elevated level of loan payoffs and paydowns, which impacted our total loan balances. However, we are seeing encouraging signs of improving economic conditions in our

markets and a growing loan pipeline. As a result, we believe that we will see stronger loan production and loan growth as we move through the year. The stronger loan growth and redeployment of our excess liquidity into higher yielding assets should enable us to realize additional operating leverage and generate further improvement in our level of profitability going forward,” said Mr. Ludwig.

### **Adjusted Earnings**

Financial results for the fourth quarter of 2020 were impacted by \$4.9 million of charges related to the prepayment of FHLB advances, a \$0.6 million loss on residential MSR held-for sale, and \$0.2 million in integration and acquisition expenses. Excluding these amounts and certain income, adjusted earnings were \$12.5 million, or \$0.54 per share, for the fourth quarter of 2020.

Financial results for the first quarter of 2020 were impacted by \$0.9 million in integration and acquisition expenses, a \$0.5 million loss on residential MSR held-for-sale, and a \$0.2 million loss on the repurchase of subordinated debt. Excluding these amounts and certain income and other expenses, adjusted earnings were \$2.8 million, or \$0.11 diluted earnings per share, for the first quarter of 2020.

A reconciliation of adjusted earnings to net income according to accounting principles generally accepted in the United States (“GAAP”) is provided in the financial tables at the end of this press release.

### **Net Interest Margin**

Net interest margin for the first quarter of 2021 was 3.45%, compared to 3.47% for the fourth quarter of 2020. The Company’s net interest margin benefits from accretion income on purchased loan portfolios, which contributed 8 and 10 basis points to net interest margin in the first quarter of 2021 and fourth quarter of 2020, respectively. Excluding the impact of accretion income, net interest margin was unchanged from the fourth quarter of 2020, as a favorable shift in the mix of earning assets and a reduction in the average cost of funds was offset by a decline in the average yield on loans and securities.

Relative to the first quarter of 2020, net interest margin decreased from 3.48%. Accretion income on purchased loan portfolios contributed 16 basis points to net interest margin in the first quarter of 2020. Excluding the impact of accretion income, net interest margin increased 5 basis points compared to the first quarter of 2020, primarily due to a reduction in the average cost of deposits and the accelerated recognition of Paycheck Protection Program (“PPP”) loan income upon forgiveness.

### **Net Interest Income**

Net interest income for the first quarter of 2021 was \$51.9 million, a decrease of 3.1% from \$53.5 million for the fourth quarter of 2020. Excluding accretion income, net interest income decreased \$1.2 million from the prior quarter, which was primarily due to lower PPP loan income. Accretion income associated with purchased loan portfolios totaled \$1.2 million for the first quarter of 2021, compared with \$1.6 million for the fourth quarter of 2020. PPP loan income totaled \$2.6 million, including loan origination fees of \$2.1 million, in the first quarter of 2021, compared to \$3.7 million, including loan origination fees of \$3.1 million, in the fourth quarter of 2020.

Relative to the first quarter of 2020, net interest income increased \$5.2 million, or 11.2%. Accretion income for the first quarter of 2020 was \$2.2 million. Excluding the impact of accretion income, net interest income increased primarily due to organic loan growth and a significant decline in the cost of funds.

## Noninterest Income

Noninterest income for the first quarter of 2021 was \$14.8 million, an increase of 3.3% from \$14.3 million for the fourth quarter of 2020. Impairment on commercial MSRs impacted noninterest income by \$1.3 million and \$2.3 million in the first quarter of 2021 and fourth quarter of 2020, respectively. Excluding the impairments, noninterest income decreased 3.5% primarily due to lower levels of residential mortgage banking revenue and service charges on deposit accounts.

Relative to the first quarter of 2020, noninterest income increased 72.3% from \$8.6 million. The increase was primarily attributable to a lower level of impairment on commercial MSRs.

Wealth management revenue for the first quarter of 2021 was \$5.9 million, an increase of 1.1% from the fourth quarter of 2020. Compared to the first quarter of 2020, wealth management revenue increased 4.5%.

## Noninterest Expense

Noninterest expense for the first quarter of 2021 was \$39.1 million, which included \$0.2 million in integration and acquisition expenses, compared with \$47.0 million in the fourth quarter of 2020, which included \$4.9 million of charges related to the prepayment of FHLB advances, a \$0.6 million loss on residential MSRs held-for sale, and \$0.2 million in integration and acquisition expenses. Excluding the FHLB prepayment charges, losses on MSRs held-for sale, and integration and acquisition expenses, noninterest expense decreased by \$2.5 million, primarily due to lower salaries and employee benefits expense resulting from the Company's branch network and facilities optimization initiative implemented during the fourth quarter of 2020, as well as a one-time vacation rollover accrual recorded in the prior quarter.

Relative to the first quarter of 2020, noninterest expense decreased 6.2% from \$41.7 million, which included \$0.9 million in integration and acquisition expenses, a \$0.5 million loss on residential MSRs held-for-sale, and a \$0.2 million loss on the repurchase of subordinated debt. Excluding the integration and acquisition expenses, the losses on residential MSRs held-for-sale and the loss on the repurchase of subordinated debt, noninterest expense declined \$1.1 million, primarily due to lower salaries and employee benefits expense and lower occupancy and equipment expense resulting from the Company's branch network and facilities optimization initiative.

## Loan Portfolio

Total loans outstanding were \$4.91 billion at March 31, 2021, compared with \$5.10 billion at December 31, 2020 and \$4.38 billion at March 31, 2020. The decrease in total loans from December 31, 2020 was primarily attributable to elevated payoffs and paydowns across most of the Company's major portfolios, as well as lower end-of-period balances on commercial FHA warehouse lines of credit, which was partially offset by an increase in PPP loans following the origination of \$79.3 million of loans in the second round of the program.

Equipment finance balances decreased \$2.9 million from December 31, 2020 to \$858.6 million at March 31, 2021, which are booked within the commercial loans and leases portfolio.

The increase in total loans from March 31, 2020 was primarily attributable to the growth in equipment finance balances, consumer loans, and PPP loans.

## Deposits

Total deposits were \$5.34 billion at March 31, 2021, compared with \$5.10 billion at December 31, 2020, and \$4.65 billion at March 31, 2020. The increase in total deposits from the end of the prior quarter was primarily attributable to strong inflows of retail deposits resulting from federal government stimulus payments and PPP-related commercial deposits.

## Asset Quality

Nonperforming loans totaled \$52.8 million, or 1.08% of total loans, at March 31, 2021, compared with \$54.1 million, or 1.06% of total loans, at December 31, 2020. The decrease in nonperforming loans was primarily attributable to the resolution of long-term problem loans. At March 31, 2020, nonperforming loans totaled \$58.2 million, or 1.33% of total loans.

Net charge-offs for the first quarter of 2021 were \$1.7 million, or 0.14% of average loans on an annualized basis.

The Company recorded a provision for credit losses of \$3.6 million for the first quarter of 2021, which was primarily related to additions to specific reserves.

The Company's allowance for credit losses on loans was 1.28% of total loans and 118.7% of nonperforming loans at March 31, 2021, compared with 1.18% of total loans and 111.8% of nonperforming loans at December 31, 2020. Approximately 90.3% of the allowance for credit losses on loans at March 31, 2021 was allocated to general reserves.

## Capital

At March 31, 2021, Midland States Bank and the Company exceeded all regulatory capital requirements under Basel III, and Midland States Bank met the qualifications to be a "well-capitalized" financial institution, as summarized in the following table:

	Bank Level Ratios as of March 31, 2021	Consolidated Ratios as of March 31, 2021	Minimum Regulatory Requirements <sup>(2)</sup>
Total capital to risk-weighted assets	12.18%	13.73%	10.50%
